DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance: The claimed micromirror projection display with the type of micromirror package is above the art of, for example, Vogely et al (5831601) who do not have the claimed micromirror package in their micromirror projection display system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hewlett (5828485) discusses micromirrors in projection display systems.
